Half and Half MAT Waiver Training

Date/Time	Wed, June 9th 1:00 - 5:00 pm
Location	live webinar via zoom Zoom link will be sent upon registration
Presented by	The UNC Addiction Medicine Program
Target audience	This activity is targeted toward clinicians who want to learn more about treating opioid use disorder and qualifies as part of the required training for physicians, nurse practitioners and physician assistants to apply for a DATA 2000 waiver to prescribe buprenorphine.
DATA Sponsor	American Academy of Addiction Psychiatry (AAAP)
Fee	No Cost
Registration	email Brenda Pearson at bpearson@med.unc.edu with: <ul style="list-style-type: none">• Name• Preferred email address• Institution• Credentials• Specialty• Role

Educational Objectives

- ✓ Screen and identify patients with OUD and define evidence-based treatments.
- ✓ Discuss the pharmacology of opioids as it relates to treatment of opioid use disorder (OUD) patients.
- ✓ Describe the fundamentals of office-based opioid treatment including the treatment of the co-morbid patient.
- ✓ Explain the process of buprenorphine induction as well as stabilization and maintenance.
- ✓ Discuss all FDA approved antagonist and agonist medications to treat OUD.
- ✓ Discuss basic office protocols including medical record documentation and confidentiality.
- ✓ Utilize evidence-based resources to ensure providers have the confidence to prescribe buprenorphine for patients with OUD.
- ✓ Recognize the importance of obtaining a waiver to begin treating patients with OUD.

Funding for this initiative was made possible (in part) by grant no. 1H79TI081968 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.
